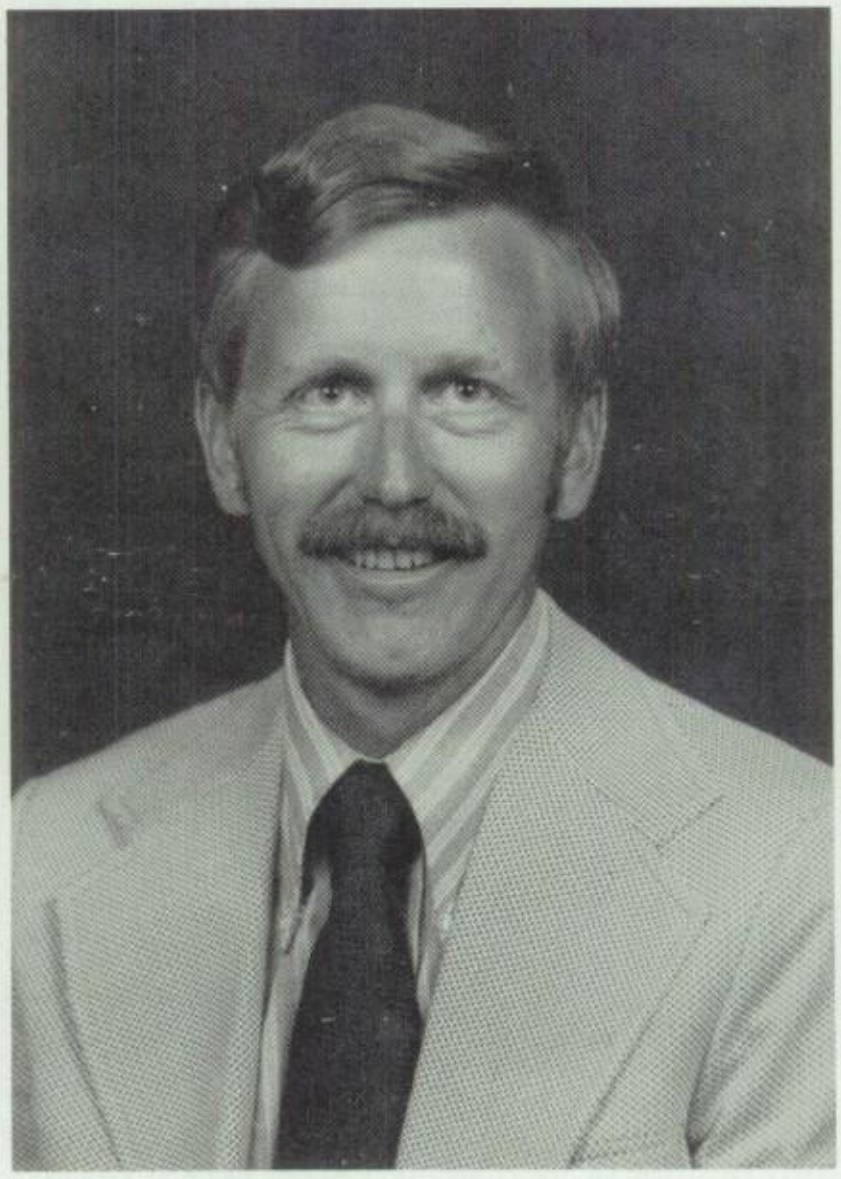
DEDICATION



To go about your work with pleasure, to greet others with a word of encouragement to be happy in the present and confident in the future; this is to have achieved some measure of success in living. -Edwin Osgood Grover

Mr. William Lindberg, fondly referred to as Mr. Bill, has, in our estimation, achieved that measure of success. There is something to be said for the teacher who gives so unselfishly of his time and talents to promote the functions of his students.

Though present trends allow teachers to dress in blue jeans and T-shirts, Mr. Lindberg has maintained a personal standard of excellence which demands a suit and tie. That standard of excellence has carried over into his classroom and extra activities. Mr. Bill is the kind of teacher who can make even the most difficult class interesting, yet challenging, but can also serve as Senior class advisor, assistant football coach, and JV basketball coach with the same enthusiasm. In each of these jobs, he has served with the zeal with which he teaches and has been an asset to the students of Wells High School.

We, the Annual Staff, therefore dedicate the 1979 El Charco to Mr. Bill Lindberg, who epitomizes the goals and aspirations of the educational process.

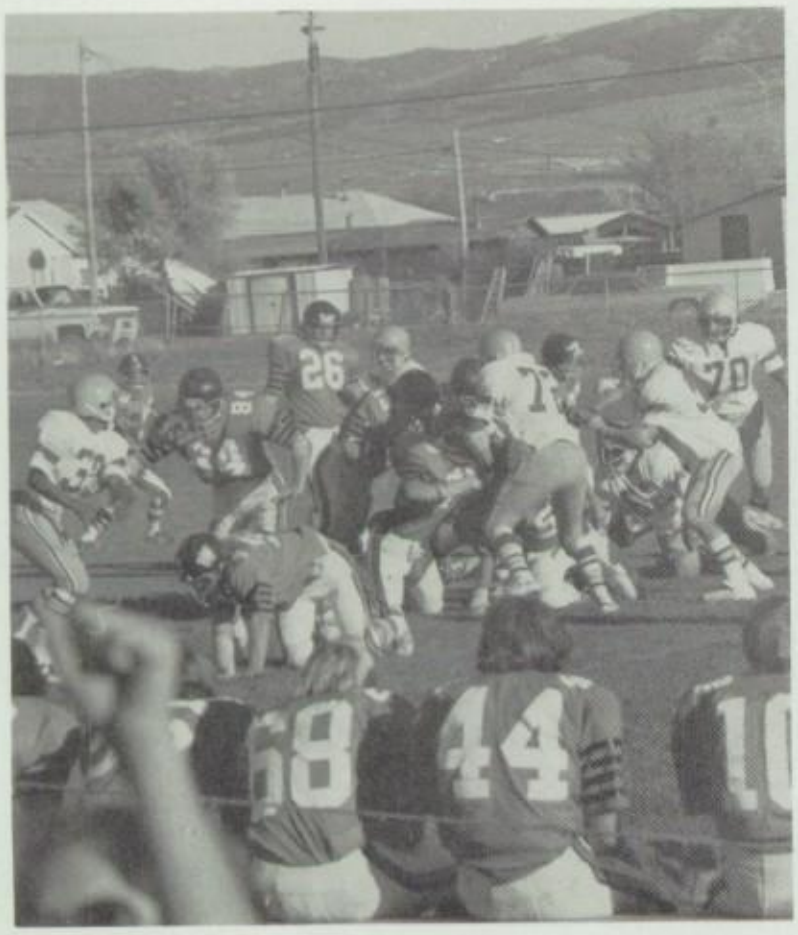
Back row (left to right) Coach Steve Hansen, Managers: Jeff Burr and Joel Sherbondy; John Garzand, David Arnold, Don Ferguson, Marlow Eldridge, Troy Eldridge, Curt Ward, Carl Paice, Robbie Martinez, John Begay, Lonnie Van Meter, Shane Atwood, Coach Steve Ranson; Middle row (left to right) Bill Beller, Albert Hyde, Preston Wood, Clint Mills, Bob Ferguson, Mike Moore, Tom Peterson, Ricky Soriano, Mike Tate, Mike Seech; Front row (left to right) Evan Tripp, Paul Peterson, Steve Beller, Chuck Huston, Tony Franco, Dale Robison, Mario Gallegos, Clark Paice, Lonnie Coates, Danny Carson.



One of the most gratifying things that can happen to a team is for the players to improve with every game. Our first game of the year was disaster, but the team didn't quit because of that. The players dedicated themselves throughout the entire season and this hard work paid off as the team played excellent ball in the last three games. However, the wins against Elko and Carlin actually "made" the season.

On a Junior Varsity program, the players learn how to play the game as well as developing sportsmanship. The dedication and humbleness of each individual should make Wells High School proud of each individual's desire in representing this school.

JV VOLLEYBALL

Athletics is an area that offers its participants an opportunity to share common interests and attitude with each other. It offers young people an opportunity to learn the meaning of sportsmanship firsthand, to learn how to handle themselves under pressure, and how to lose as well as win.

This year I have watched a group of individuals grow and mature into a team. A team that has been nourished with enthusiasm, desire, and pride. A team that may recall the hours of hard work, the tears shed in defeat and the joy found in victory. We have not had an excellent season but we have had a good one! Like all teams we have had our ups and downs and have learned from our experiences. It is my belief that if the individuals involved can look back on the season and say, "I gave all that I had to give," then a victory has truly been attained.

A sport does not belong to a team, but it is instead a sport of the school. Therefore, it reflects the attitude of the school. With a positive attitude will come victory and with a negative attitude will come defeat. Only when individuals come together and give totally of themselves, can their individual efforts combine to make a team and school that they and their community can be proud of.

GIRLS BASKETBALL

At the beginning of the season we had three major goals. I wanted the girls on the team to have fun, learn fundamental skills and strategy of basketball, and win some games. We did all that and more.

I know the high point of the season for some of the girls was when I had the seat of my pants soaked by a leaky water bottle during a game in Lund, but each of the girls contributed more important plays to the season.

Lori started out as manager but became an important player; Nancy had to play at different positions because of injuries to other girls on the team, and did a fine job; Pam developed into a sharpshooter from the top of the key; Sally had several games in which she scored more than twenty points; Glenna played hurt much of the time but made many outstanding plays; Marianne always went all out, and was excellent on both offense and defense; Yvonne came off the bench to spark our first win over White Pine; Tonja was often called upon to guard girls who were much bigger than her, and more than held her own; Jean showed that she could dribble and chew gum at the same time, and was one of the most improved players on the team.

I enjoyed the season, and best of all, I got to coach some young ladies who will be members of a future championship team.

The success or failure of our basketball season should not be based entirely upon the number of games we won or lost. While winning is important, there are other factors or criteria which should be considered in evaluating our basketball season.

Did our players improve throughout the course of the season? Yes! Without doubt, all of our players showed steady improvement as the season progressed. With the possibility of eight experienced and confident players returning to varsity action next year, your future appears promising.

Did our players conduct themselves in such a manner as to bring praise and respect to our school? Without a doubt, our team earned the respect of fans throughout the state. Many times during the course of the season, other coaches, officials, and opponents praised the conduct of the Wells players, on and off the floor.

Did our players try their hardest and do their best? This is hard to determine. But I feel confident in saying that our players did, in most cases, play their hearts out for Wells High School.

In concluding, I would like to thank the players (past & present), faculty, student body, administration, and fans for the support that they have given me during my coaching career at Wells High School.

Coach Swabb

The Junior Varsity program at any school is a building program. It is a level of competition where a player developes his skills for use later in varsity competition. Individual achievement and learning the team concept of playing the game are more important than "winning is everything", at this point in a young man's career. The Wells Junior Varsity team of this season was composed of seven Sophomores and seven Freshmen, with many of the Freshmen seeing extensive action. With a young team such as this, the more game experience each player received, the better he and the team will be in the future. Even though we did not quite win half our ball games, we played competitively in all games, showing definite improvement over the course of the season. With the improvement shown by the players this season, the potential for the future of Wells basketball looks bright.
